biliary glycoprotein B - mouse C;Species: Mus musculus (house mouse) C;Date: 24-Feb-1994 #sequence\_revision 24-Feb-1994 #text\_change 09-Jul-2004

of mouse colon biliary glycopro C;Accession: JCL506
R;McCuaig, K.; Rosenberg, M.; Nedellec, P.; Turbide, C.; Beauchemin, N. Gene 127, 173-183, 1993
A;Title: Expression of the Bgp gene and characterization of mouse colon A;Reference number: JCL505; MUID:93273228; PMID:8500759
A;Accession: JCL506
A;Accession: JCL506
A;Status: nucleic acid sequence not shown

A; Molecule type: mRNA A; Residues: 1-278 <MCC>

A;Cross-references: UNIPROT:099232 C;Comment: This protein is expressed at the cell surface and plays a determinant role in C;Genetics:

A,Gene: BgpB C,Superfamily: biliary glycoprotein; carcinoembryonic antigen precursor amino-terminal h. C,Keywords: glycoprotein; receptor F;1-138/Domain: carcinoembryonic antigen precursor amino-terminal homology <CEAN> F;155-216/Domain: immunoglobulin homology <IMM> F;87,104,153,195/Binding site: carbohydrate (Asn) (covalent) #status predicted

C;Comment: NCAM mediates cell-cell adhesion via homophilic binding with another NCAM mol.
C;Comment: Various forms of NCAM are produced by alternative splicing.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 C.
